Advertiser Testimonials

Trish Cable, Owner

"When the people of Talk'n Tables approached us about putting ads on the City Diner's tables we didn't know what to do. We had never heard of this type of advertising before!

"After some thought, my husband and I decided to give it a shot and I can truly say we are glad we did.

"The results went beyond our expectations. We have received good response!! We've tried other forms of advertising that didn't work but this definitely did. We had 10 ads in the City Diner for 2 years at the same cost as what it cost us for one month in the Beaver County Times."

"Although we still do other forms of advertising Talk'n Tables will always be in our budget. People are always telling us they have seen our ads at the City Diner. It has paid for itself over and over again and I would definitely do it again. Thank You!!"
